📄 Career Objective

I possess a strong foundation in HTML 5, CSS 3, Core Java, JDBC, Hibernate, and the Spring Framework, and I am highly motivated and detail-oriented. I am determined to secure a challenging position as a Java Developer where I can utilize my skills to develop dynamic and scalable web applications. I am confident in my ability to contribute to a forward-thinking team while continuously enhancing my proficiency in technologies such as Spring MVC, Spring ORM, JSP, MySQL, and Bootstrap 5. As a dedicated learner, I am eager to leverage my educational background and hands-on experience to bring innovative solutions and drive the success of the projects entrusted to me.

🧠 Skills

- | | | | |
|--------------------|-------------|--------------|---------------|
| • HTML5 | • CSS3 | • BootStrap5 | • Core Java |
| • JDBC | • Hibernate | • Servlet | • Spring Boot |
| • Spring Framework | • JSP | • MySQL | |

🎓 Education

Bachelor of Science in Information Technology (BSc.-IT) <i>K V Pendharkar College of Arts, Science and Commerce</i> CGPA:- 7.73	04/2020 – 04/2023 Dombivli, India
-----------------------------------------------------------------------------------------------------------------------------------------------------	--------------------------------------

HSC <i>Gyanoday Vidya Mandir Jr. College</i> Percentage:- 53.60%	02/2019 – 02/2020 Thane, India
--------------------------------------------------------------------------------------	-----------------------------------

SSC <i>Gynoday Vidya Mandir School</i> Percentage:- 60.80%	05/2017 – 03/2018 Thane, India
--------------------------------------------------------------------------------	-----------------------------------

📄 Certificates

Java Full Stack Developer ☑ Anudip Foundation	Java (Java OOP Feature) ☑ Udemy	Enterprises Application Development ☑ Udemy
---------------------------------------------------------	-------------------------------------------	-------------------------------------------------------

📁 Projects

Hospital Management System ☑ Advanced Java technologies such as Servlets, JSP, SpringBoot, and Hibernate was utilized to develop a robust Hospital Management System. The system is integrated with Bootstrap 5 and features dedicated panels for Admin, Customer, User, and Doctor, ensuring a seamless and efficient healthcare facility management solution	02/2023 – 03/2023
--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-------------------

Note App ☑ Implemented a Note App Application with Hibernate, JSP, and Servlet technologies, resulting in a 40% decrease in note-app time. It demonstrates my expertise in web development and dedication to optimizing user productivity.	04/2023 – 05/2023
------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-------------------

Food Ordering System I developed a console-based Food Ordering System, showcasing my programming skills and problem-solving abilities. This underscores my commitment to creating practical and efficient solutions	08/2023 – 08/2023
-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-------------------
